

ST.GERMAIN'S ELIXIR

AMETHYST CRYSTAL WATER

These Sacred Healing drops will purify all discordant energies around the Heart Flame. This will then allow a clear connection to be made between your & your heart pathways. Only then can you find it easy to live your divine purpose to express your gifts in and to the world.

St. Germain has been very present in my life over the last year and a half. He has inspired me to make a few beneficial products this year to help with Humanities evolvment and ascension to the 5th dimension. These drops are made on a St.Germain template with his Maltese cross embossed in the centre. They are made with a strong Amethyst generator key Crystal and an Amethyst star crystal elixir in Cystalline spring water.

The Amethyst has profound spiritual healing effects and as they are for internal use, they will clear away any unwanted or discordant energies around the body and around the heart. So far they have brought remarkable results to people, saying they have healed family wounds in where nothing else would work. They have bought miraculous benefits to all disharmonious circumstances.

St. Germain impressed me to use the number 4 with the dosages as the Maltese Cross has 4 points, representing the balance within the heart, the earth, the 4 directions and with the 4 Archangels.

So one can take 4 drops, for 4 days on, then nothing for the next for the next 4 days so no drops, then 4 drops for 4 days again, 4 days off and so on until the drops run out, usually it will take around 4 weeks all together. If needed again in the future wait another 4 weeks or 4 months depending on how urgent the requirement. They are safe to use as they are only made of the mineral Amethyst, like wearing amethyst jewellery internally
