

St.Germain's Sacred Amethyst Spray

St.Germain's sacred Aura & room spray is made from natural spring water with an Amethyst crystal key & generator emerged, In the bowl, then sat under a copper pyramid on the divine "Template of the Maltese cross".

This makes a high vibrational Light Liquid with the Amethyst properties...of purification, spiritual awakening & protection of the soul. It cleanses any room before and after healing & spiritual work and is great for ones auric field. People will find that it not only cleanses & transmutes discordant energies but it also will envelope one in the purple colour of the violet flame for at least 12 hours and seal you in a field of protection & love.

It is also scented with pure lavender oil, which is a calming antiseptic fragrance that assists with this work. Lavender has wonderful healing properties as it helps the body to relax & de-stress. When we relax, we open up the spiritual dimensions, therefore become more available to the Angels & Masters so they can work with us. It is coloured with organic food colouring and has the cross on the label to hold the energies in, so it doesn't deplete of its high vibration over time.

St. Germain impressed to make this for humanity as people are now working with higher energies & practicing space clearings, healings of all modalities everywhere, which is wonderful to see. We are all rising in vibration as we clear & heal ourselves & this beautiful planet with love & light as intended in part of the Great Divine Plan. This is a wonderful tool to assist you in that! Enjoy and use whenever desired.
